Can You Afford to Use One of These?

SEE THAT PARTITION IN THE HERRICK?

BECAUSE

Circulation is perfect. It saves one-third your ice bill. No scrubbing necessary. You get one-third more cooling space for your money. No poisonous zinc lining. No mold. Always

**DRY, PURE,
SWEET and CLEAN.**

The walls are packed with sanitary mineral wool—NOT WIND. It is the only sanitary refrigerator made. Foods will not taint nor smell of each other. No mold.

Oak finish, raised panels, highly finished, improved center air draft for cold, dry air; no cleaning and scrubbing necessary; no zinc lining to sweat, corrode and poison your food. See what Dr. Cyrus Edson says about zinc-lined refrigerators, then investigate.

Buster Brown Bread

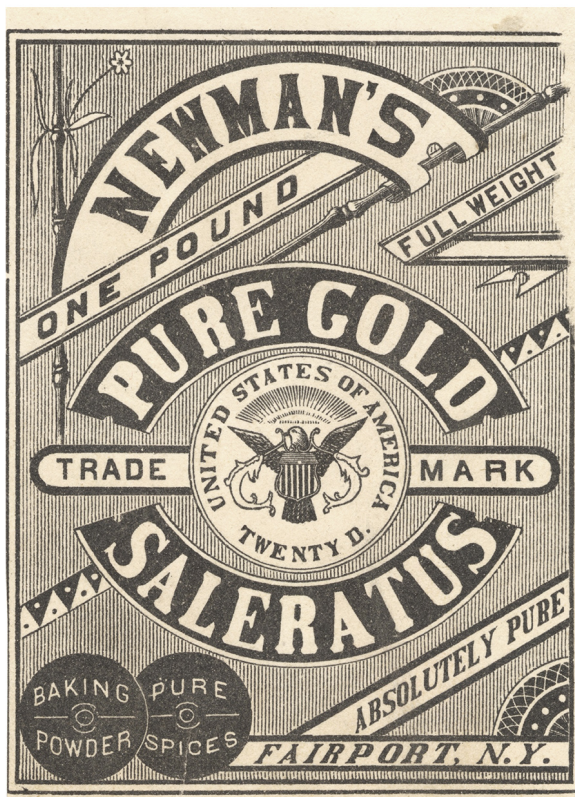

The GOLDEN WEST BAKING COMPANY has recently erected a magnificent plant on the new-made land just wrested from the wash of the waves of Puget Sound, at the corner of Massachusetts street and Moran place, for the manufacture of that latest, greatest and completest achievement of gustatory science, the far-famed and widely-heralded BUSTER BROWN BREAD, the purest, sweetest and most delicate product of mill and oven ever offered to the American people as their staff of life.

On the first of March a beautiful brown loaf of BUSTER BROWN BREAD will be ready to go into the hands and thence into the mouths of every man, woman and child in Seattle who has a nickel to spend for the nicest loaf of bread one ever ate.

"RESOLVED, That bread is the staff of life. Pure bread is the staff of pure life. I saw once a wonderful picture of the germs of fermentation which lurk in a loaf of improperly baked bread, enormously enlarged. They looked like a string of badly shaped potatoes stuck together like a string of sausages. The chemist told me that when they were swallowed in the little lumps of fresh bread, which a fellow sometimes gulps down when he is in a hurry, they set up inside of his stomach a fermentation that was simply fierce; causing indigestion, then chronic dyspepsia, constipation and all sorts of trouble in the system. So I think that good bread is the staff of a good life, because no man who is dyspeptic, nervous, irritable, fault-finding and disagreeable can live the sweet, gentle, 'simple life' that we all ought to strive after."—BUSTER.

"You bet, Buster is all right. He knows what he is talking about. He knows good bread, too, when he eats it. I am going to get a whole loaf of that BUSTER BROWN BREAD myself on the first of March from the GOLDEN WEST BAKING COMPANY, and eat every bit of it. I will bet it will be as good as a bone."—TIGE.

Buster Brown Bread Is the Best.

HEALTH DEMANDS IT

"Bread is the Staff of Life," THEREFORE HAVE IT GOOD.

Bake your own Bread. Why? Because, "Money saved is Money made."

READ THESE FIGURES.

A barrel of Ballard's Obelisk Flour by actual test makes three hundred and eighteen loaves of bread. If you buy bread at five cents a loaf you pay fifteen dollars and ninety cents for as much bread as one barrel of flour will make, whereas if you bake your own bread it will not cost you over five dollars, thus saving to a family using a barrel every month ten dollars and ninety cents per month, or one hundred and thirty dollars and eighty cents a year. Just think of it! You save almost as much as house rent! Can you afford to throw that money away? Besides you know what you are eating? Not poor damaged flour, bought because it is cheap and doctored up with chemicals to make the bread white, but a sweet, wholesome bread, made of the purest flour, ground from the finest wheat, and every barrel and sack warranted absolutely pure and free from adulteration of any kind.

Think of that! By making your own bread you SAVE nearly ELEVEN DOLLARS per month, and get the best in the land.

"Bread is the Staff of Life."
THEREFORE HAVE IT GOOD.

Ballard's Obelisk Flour

Is the Whitest, Purest and Best Patent Flour made. Ground from carefully selected Wheat in our own mills. Every barrel and sack warranted.

Being very particular to grind only the most carefully selected wheat, we make Flour that is superior to all others and considering the quality is the cheapest on the market.

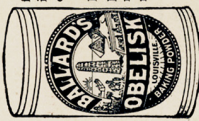

Always Reliable.

Ballard's Obelisk Baking Powder

For years the Public has been paying from forty-five to fifty cents a pound for Baking Powder, thus yielding the Manufacturers enormous profits.

Educated in the Flour Mill business to large sales and small profits, we carry the same policy into the Baking Powder business and make a strictly pure high grade Powder that retails at the very reasonable price of only twenty-five cents a pound can; better and purer and more wholesome than those which cost twice as much money.

25c per lb. Can

Pure Silver Baking Powder

We also manufacture the Pure Silver Baking Powder, which retails at the very low price of 10c per pound can or a three pound can for 25c.

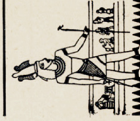

The Pure Silver Baking Powder is certainly the best Baking Powder on the market at ten cents a pound can and will give splendid satisfaction.

10c per lb. Can

WE NEED A FEW AGENTS to help introduce the **OBELISK BAKING POWDER**. **BOYS AND GIRLS** can get **BICYCLES, WATCHES**, and other nice presents, or **LADIES** can secure **SEWING MACHINES, DINNER SETS**, and many other handsome and useful gifts by selling a small amount of **OBELISK BAKING POWDER** in their own neighborhood.

Drop us a postal card and we will write you full particulars.

The Ballard Flour Mills

Are situated in Louisville, Ky., and are fitted throughout with the finest machinery and are producing the finest flour daily. The output for the year ending June 30, 1896, was 494,731 barrels flour.

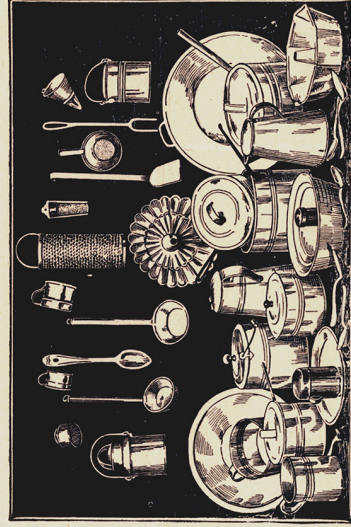

By far the largest output of any mill in the South.
